		6。	On 20 August, the Buelow Kaserne was occupied by about 300 troops wearing red-bordered black epaulets, On 7 August, about 24 troops left for the firing
051/4			range and 50 troops engaged in physical training.
25X1	,	L	
25X1		7.	On 20 August, the Hindenburg Kaserne was occupied by about 200 troops wearing red-bordered black epaulets with tank insignia. No regular activities were observed between 4 and 20 August. On 4 August, SU-100 guns were observed in the barracks area. At 6:30 p.m. on 14 August, 10 T-43 tanks,
25X1			and about 50 soldiers wearing red-bordered black epaulets will
25X1			tank insignia were entrained at the freight station on Kant Strasse.
	<u> </u>		
		8.	AAA emplacements observed in August included an emplacement of 4 x 85-mm and 4 x 37-mm AA guns at the railroad bridge across the Oder River; and an emplacement of 4 x 85-mm and 4 x 37-mm AA guns near the autobahn bridge across
			the Oder River. The fire-direction center and radar for these batteries were determined in the bend near Lossow. Another emplacement of each two batteries
			of 85-mm and 37-mm AA guns was determined near the new churchyard. The fire
			direction center was in the immediate vicinity of the batteries. Camouflaged
25X1			motor vehicles were seen near the emplacements.
			these AAA units had come from the Hindenburg Kaserne.
25X1		1.	Comment. The elements of the 7th Gds Mecz Div stationed in Frankfurt/ Oder returned to their installations from the Lieberose troop training grounds
	,		during the rebellion in June. As Camp Jamlitz was vacant on 25 July and, according to information in this report, the Horn Kaserne and the Buelow Kaserne
			were occupied to capacity on 11 August, there is reason to assume that large
			elements stayed at the installation from mid-June to early August. The departure
			of individual units mentioned in this report probably was connected with
			exercises of the division, which took place in the area between Frankfurt/Oder
		,	and Lieberose in August. Information in this report as well as previous
			information, according to which 12 troop trains were seen en route between Frankfurt/Oder and the Lieberose, Beeskow and Grunow railroad stations, tends
			to indicate that battalions and regiments practiced individually one after the other and that the exercises were not held at division level.
ÒEV4		٦.	
25X1		2[Comment. The elements of the 32d AAA Div (US), which were absent from the Artillerie Kaserne, are fairly definitely believed to have transferred to
			Wustrow on 2 or 3 trains on 19 August.

SECRET,
